Orientation					
<ul style="list-style-type: none"> Clinical Instructor provided basic information about perioperative start time, locker room location and provided me with scrubs. 	✓				
<ul style="list-style-type: none"> The Clinical Instructor reviewed expectations for the clinical experience with me including skills. 	✓				
Application of QSEN Concept Learning					
My learning about Teamwork/Collaboration and Patient Safety were supported by dialogue with Perioperative staff in each clinical area.	✓				
<ul style="list-style-type: none"> Pre-operative (Pre-Op) Intra-operative (OR) Post-operative (PACU) 	✓				
I felt comfortable asking my RN Preceptors and Perioperative Staff any questions I had.	✓				
<ul style="list-style-type: none"> Pre-operative (Pre-Op) Intra-operative (OR) Post-operative (PACU) 	✓				
I was able to observe and/or discuss Teamwork/Collaboration and Patient Safety as it related to practice and/or care of the patient in the 3 clinical areas below:	✓				
<ul style="list-style-type: none"> Pre-operative (Pre-Op) Intra-operative (OR) Post-operative (PACU) 	✓				
<ul style="list-style-type: none"> Teamwork/collaboration and patient safety were appropriate and attainable QSEN concepts to be assigned based on the operative procedure I observed. 	✓				
<ul style="list-style-type: none"> Please place a check mark ✓ next to other QSEN concepts that you observed during the perioperative day: <input checked="" type="checkbox"/> Quality Improvement <input checked="" type="checkbox"/> Informatics <input type="checkbox"/> Evidence-based Practice <input checked="" type="checkbox"/> Pt. Centered Care 					

Strengths/Areas for Improvement

Not including more time, hours, are there other things that you can identify that might enhance student experiences in the perioperative experience?

I thought it was great experience! Everything was outlined and expectations set. It was a welcoming experience by great people.

Please provide feedback, positive or constructive, about your experience in the perioperative care setting. This can be about your assigned RN preceptor as well as/or any other staff. If you are comfortable please be specific about what went well or did not go well and use names of staff members. You will not be identified to clinical staff members.

Meg was awesome! Super welcoming and immediately made me feel like a part of the team rather than just a student observer. I really appreciated that. All the staff had me get involved and see new things! I loved the experience. (Meg, Amy (scrub), Dr. Craig)
